

Products

We create innovative products that are reliable solutions. We employ the best technology to offer solutions that are a lifetime's asset. We make this possible with our expert professionals, resources and dedication. At SMT, we make the highest quality products at par with the global benchmark, this is ensured through collaborative teamwork such that each product is the end result of a robust, vigilant and validated processes. This stands true to the demands of modern technology as it meets and exceeds the applicable quality and regulatory requirements.

Coronary Intervention Devices

Sirolimus Eluting Cobalt Chromium Coronary Stent System

CE 2460

Supraflex Cruz

Sirolimus Eluting Cobalt Chromium Coronary Stent System

CE 2460

Tetriflex

Unique biodegradable Polymer matrix

Everolimus Eluting Cobalt Chromium Coronary Stent System

Tetrilimus

Unique blend of Hydrophilic-Hydrophobic biodegradable polymers

Accessories

Safe Push-Pull Y-Adaptor

Easy-Catch+ Haemostatic Y connector

Easy, fast, safe and accurate

Aspiration Catheter

Identity aspiration catheter

Aspiration Catheter

Inflation Device

SMT i30 inflation device

Peripheral Intervention Devices

Paclitaxel Drug-Coated PTA Balloon

Hybrid X² Technology

Peripherics

Peripherics

Renofit

Renofit

Balloon Expandable Cobalt Chromium Renal and Biliary Stent System

Structural Heart Devices

Septal Occluder

CE 1434

Cocoon Septal Occluder

Cocoon Septal Occluder

PFO Occluder

CE 1434

Cocoon PFO Occluder

Cocoon PFO Occluder

Duct Occluder

CE 1434

Cocoon Duct Occluder

Cocoon Duct Occluder
